Confirmation

Dear Sir or Madam,

I hereby confirm that the students Felix Zauner and Timofey Luzin are completing the PCB design as part of their project „ALBERT – Development of an autonomous guided missile with real-time attitude control for weather data collection“, which they are carrying out as their official final-year project in their graduating year.

This work is being conducted within the Department of Electrical Engineering at HTL Salzburg, and I affirm that the project fulfills the requirements and expectations set for final-year student projects.

Roland Holzer
Head of the Electrical Engineering Department
HTL Salzburg
